---

## Manager Resource Geology – Mx

The Suttie Group is working with a well funded Silver producer in Mexico who has an opportunity for an accomplished Geologist who will be responsible for providing guidelines to the Geology Departments at the regional level ensuring the quality control of sampling and implementing standard practices to ensure interpretations are performed accurately and delineated in the best possible manner to maximize economic extraction, minimize ore loss and dilution and ensure accurate records and timely reports.

Requirements: -

- 10+ years' experience in mine geology primarily in au/ag UG mining.
- Bilingual Spanish & English, verbal and written
- Bachelor of Engineering (Mining Geology) or BSc in Geology.
- Adept with Vulcan, AutoCAD and MapInfo and geology/mining modelling software.
- Familiarity with some advanced geostatistical software (MP3, Snowden Supervisor etc.).
- Extensive underground and underground mapping experience.
- Expertise with Mine production grade control and estimation of resources and reserves.
- Previous involvement in exploration programs.
- Proven leadership skills, proactive and works well under pressure.
- Willing/able to make frequent visits to underground operations.
- Must be willing to live in Guanajuato State in Mexico

If you are ready to take your career to the next level, please submit your resume in Word format to Elizabeth via the [www.suttiegroup.com](http://www.suttiegroup.com) website.

Your confidentiality is assured and we look forward to representing you!
