

# The Suttie Group

Passionate about people, partnerships and performance

## Gerente de Proyecto - Mexico

The Suttie Group is working with a growth oriented precious metals mining company focused on the development of a new project in Mexico. Our client currently has an exciting Project Manager opportunity at a greenfields development stage project.

### Position:

Reporting to the VP Engineering the Project Manager will take overall responsibility for aligning the site operations with the construction of the mine and facilities which are scheduled for completion by 2020.

### Background:

This property is located in a safe region within Mexico. The challenges are that this future underground mine and plant will be constructed on a steep mountaintop where roads and facilities must be constructed with emphasis on safety and the environment. The environment is semi-tropical with extensive rainfall for part of the year.

### Skills and Experience:

- Engineer – Civil or equivalent
- 10+ years' successful track record in mine construction management
- Proven experience working in challenging environments.
- Strong focus on Environment & Safety
- Fluent in Spanish, intermediate English
- Well organized and proven problem solver who works effectively under pressure
- Innovative thinker with excellent organizational and planning skills
- Skilled manager for producing reports and budgets.

### Overall Responsibilities for this project include:

Safety - environmental management - & CSR - logistics - accounting - human resources - managing contractors & consultants - assisting with negotiations with land owners & contractors - manage local government relations - control and manage all the fixed assets including equipment and vehicles.
