Site Manager, Mexico

The Suttie Group is working with a growth oriented precious metals mining company focused on exploration, development and production in Mexico. Our client currently has an exciting **Site Manager** opportunity at a development stage project.

Reporting to the Mexico Country Manager the Site Manager will take overall responsibility for aligning the site operations with the construction of the mine.

Responsibilities for this site include:

Safety - environmental management - logistics - accounting - human resources & CSR - manage contractors & consultants - assist with negotiations with land owners & contractors - manage local government relations - control and manage all the fixed assets including equipment and vehicles.

Skills & Experience:

- 10+ years' experience in mine construction site management
- Minimum 15 years' experience in the mining industry
- Bachelor's degree a related field
- Fluent in Spanish, intermediate English - excellent verbal and interpersonal skills, comfortable engaging directly with Managers and other executives.
- Prior experience in overseeing CSR, Environmental management, Logistics, and Safety.
- Innovative thinker with excellent organizational and planning skills
- Proven problem solver who works effectively under pressure
- Skilled manager of reports and budgets.

Initially this will be a 20/10 rotation schedule.

If you are qualified for this position and are ready to take your career to the next level, please submit your resume in Word format to Elizabeth via the www.suttiegroup.com website.

Your confidentiality is assured and we look forward to representing you!
