Superintendent Environmental Projects - Mexico

The Suttie Group is working with a well funded Silver producer in Mexico who has an opportunity for an accomplished Environmental Permitting & Community Relations specialist. You will be responsible for leading all aspects of obtaining community, environmental and government permits in relation to the development of new and existing mining projects in Mexico. The successful candidate will also handle all issues from strategic planning to tactical implementation.

Other duties include:

- Development of successful local teams.
- Representing the company when taking responsibility for negotiations with regulatory agencies and build a strong relationship between the company and Mexican authorities to issues related to the environment and community relations.

Requirements:

- Master's degree in Engineering: Environmental, Mining, Geology or other mining specialization.
- 10+ years in a similar positions in the mining sector
- Well versed in the preparation and delivery of reports for environmental permits, including Environmental Impact and Land Use Change with a deep knowledge of Mexico's official standards and regulatory agencies i.e. SEMARNAT, SEDENA and CONAGUA
- Established track record of successfully completed negotiations with these regulatory agencies
- Has worked with both underground and open pit mining environments and worked extensively with near mine communities.
- Willing and able to travel to mine sites.

The Suttie Group

Passionate about People, Partnerships & Performance
