Underground Mine – General Manager

Our Client is a growing mid-tier producer in the Americas and views this UG Mine operation as critical to their performance; existing challenges must be addressed to show a demonstrated a turnaround. With your participation and depth of talent they will succeed.

Goals:

- Address short term mine planning issues
- Increase Mine productivity
- Improve utilization of the mining fleet
- Improve grade control and ore handling
- Cost control is paramount in addressing financial issues
- Through strong leadership skills improve the productive mindset of all personnel
- In conjunction with Senior Management prepare a plan including basic KPI's for the team that hold each shift accountable for their results.

Capacities:

- Degree in Mine Engineering or equivalent with extensive UG Mine Management skills.
- Spanish fluency is required.
- Desire to participate in project turnaround / change management which includes the ability to rapidly grasp the limitations and deficiencies in each department which includes:
 - planning
 - geology
 - mining
 - associated service departments with particularly emphasis on short term mine planning
 - scheduling and execution
- A firm and fair approach to managing the daily performance of department heads and their direct subordinates
- The ability to assess staff capabilities and attitudes and take corrective action where needed.
- A demonstrated ability to rapidly turn a project's results to positive without stopping production.

Reporting to: Country Manager, Mexico

Permanent Position

Rotation: FIFO

Does the above describe you? If you are a seasoned Mine Engineer who enjoys a challenge in a fast paced environment, this may be the opportunity you have been waiting for. Please submit your resume in MS Word format to Elizabeth via the www.suttiegroup.com website.

Your confidentiality is assured and we look forward to representing you!
